Education

Boğaziçi University — Istanbul, Turkey
B.S. in Electrical and Electronics Engineering — Expected Graduation: May 2027

Research & Work Experience

Boğaziçi University, Institute of Biomedical Engineering — Istanbul, Turkey
Computational Imaging Laboratory – Undergraduate Researcher — July 2024 – December 2026

- Prepared and preprocessed MRI data, including image segmentation and registration.
- Conducted machine learning and deep learning research on IDH mutational subgroup classification in gliomas.
- Worked closely with Dr. Gülce Turhan under the supervision of Prof. Esin Öztürk Işık, contributing to two co-authored publications.

Sestek — Istanbul, Turkey
R&D Engineer Intern — January 2026 – February 2026

- Trained a spoken-language identification model on the Common Voice dataset.
- Built a real-time demo for live microphone language identification.

Huawei Turkey R&D Center — Istanbul, Turkey
AI Research Engineer Intern — June 2025 – August 2025

- Researched a state-of-the-art click-through rate (CTR) prediction model, implemented it in TensorFlow and integrated it into the team's recommendation pipeline.

Publications

- *"Cerebral Blood Flow and Time of Exchange Measurements Using Multi-TE Blood–Brain Barrier Arterial Spin Labeling MRI in IDH Mutational Subgroups of Gliomas."* Magnetic Resonance Materials in Physics, Biology and Medicine (MAGMA) 2026. (Co-author)
- *"Machine Learning-Based IDH Mutational Subgroup Classification in Gliomas Using Cerebral Blood Flow and BBB-ASL Exchange Times."* European Society for Magnetic Resonance in Medicine and Biology (ESMRMB) 2025, Marseille. (Co-author, Lightning Talk/Poster)

Teaching Experience

Boğaziçi University — Istanbul, Turkey
Teaching Assistant – MATH 482 - Machine Learning Methods and Neural Networks (Fall 2026)

- Prepared and graded one of the five assignments for a class of 150+ students.
- Helped students during office hours with questions on the lectures and assignments.

Technical Skills

- **Programming Languages:** Python, C++
- **Libraries and Frameworks:** Scikit-Learn, TensorFlow, PyTorch
- **Developer Tools:** PyCharm, VSCode, MATLAB, LaTeX

Scholarships

- Tactix Twinning Project — 2025 – 2026
- TÜBİTAK DEBBIE Project (121N030) — 2024 – 2025

Achievements

- ALES (Selection Exam for Academic Personnel and Graduate Studies): Score: 95.61, Rank: 67 out of 117,556.
- Ranked 417th in the Nationwide University Entrance Exam (YKS) among 2.5 million students in Turkey.

Extracurricular Activities

Boğaziçi University Student Council, Student Representative
Boğaziçi Folklore, Tennis and Volleyball Societies, Active Member
